

Travel Information for the CeNS workshop

„Emerging Nanosystems – From Quantum Manipulation to Nanobiomachines“,

San Servolo, Venice, Italy, Sept. 25th to 29th 2006:

Workshop Location:

Venice International University (VIU)

Isola di San Servolo

30100 Venice - Italy

viu@univiu.org, <http://www2.univiu.org/>

tel. +39 041 2719511

fax. +39 041 2719510

Conference office (only during the workshop): +39-041-2719 550

General comments about transportation in Venice:

Given the particular geographic situation of Venice, please expect every trip to take more time than you think!!

*The transportation inside of Venice works by boat or you just walk. The local public transportation by boat is called **VAPORETTO**. There are many different lines going to different places in Venice, so please refer to the following information to find the correct line.*

*Lines No. 1 and 82 follow the Canal Grande, which is a beautiful, but slower option than the other lines which don't go through Venice, but around the old town and are faster. You can buy cheaper tickets (**conference cards**) for € 10,50 for the first day, for € 15,00 for two days, € 19,50 for three days, € 3,00 for each day thereafter.*

How to reach the conference location VIU:

From San Marco to San Servolo:

*The public boat to San Servolo leaves from the “Riva degli Schiavoni” (boat landing “**San Zaccaria**”) close to the **Piazza San Marco**. The stop is in front of the Londra Palace Hotel and you have to take boats **n° 20**.*

From the Train Station (Ferrovia) Santa Lucia or Piazzale Roma to San Servolo

*There are several choices from Piazzale Roma to San Servolo. You must take the **n°1, n°41, n°51, n°61** (only from Piazzale Roma) or **n°82** boat, direction “Lido”, and get off at the **San Zaccaria** boat stop. At San Zaccaria you must change to line **n°20**. Both lines leave from in front of the Londra Palace Hotel.*

From Marco Polo Airport (Venice) to San Servolo:

*Take the shuttle bus **ATVO** (blue bus) or **ACTV** (orange bus No. 5) to **Piazzale Roma** (takes about 20 min) or the **ALILAGUNA** service to **San Zaccaria** (takes about 1h30) and then continue as explained above.*
