

# Science Rocks!

how i  
met your  
mother

The illustration shows several sperm cells, each with a red head and a long tail, swimming in a white space. They are positioned around the text 'how i met your mother' and the orange shape. The sperm cells are drawn in a simple, stylized manner with a textured red head and a thin, slightly curved tail.

the mechanical strength  
of receptor-ligand  
interactions during  
gamete fusion
